

METRIC CENTERFIRE RIFLE 0 to 7.6 mm

Updated 2-10-19

<u>Caliber</u>	<u>Headstamp-Description</u>	<u>Price</u>
<u>4.3 x 45 Experimental</u>		
		
FJPTD	DAG 4.3 X 45 (flat nickel primer, German experimental) ...	6.00
<u>4.32 U.S. (17 cal.)</u>		
FJPTD	F A 70, 71, 72, (or) 73 (flat brass primer with red seal)...	6.00
Same	L C 76 (flat brass primer with purple seal).....	6.00
New primed empty	R A 66 (flat brass primer with red seal)	1.00
<u>4.6 x 30 H & K</u>		
40 grain FMJ	G.F.L. 4.6 x 30 (flat brass primer, copper bullet jacket).....	2.50
FJ Flat tip	RG 05 4.6 x 30 (nickel primer, think this by Radway-Green. British. These are said to be rejected by our Navy Seals due to lack of killing power).....	4.50
Monolithic (?) 31 grain HP	DAG 0SB1133 4.6 x 30 (nickel primer, green primer & mouth seal)	4.50
<u>4.6 x 36 Experimental</u>		
		
Spoon tip experimental	SB-T 4.6 68 (single grind in bullet ogive right at the tip, Spanish experimental.)	10.00
Spoon tip experimental	HK 4.6 x 36 (Same as above, H-K experimental)	10.00
<u>4.7 x 45 German Experimental</u>		
		
FJPTD	DAG 4.7 MM (flat nickel primer, three stab crimps, maroon seal).....	7.50
<u>4.85 x 49 British Experimental</u>		
		
Tracer, red tip	RG 77 4.85 (same as above)	15.00
<u>5.45 x 39 Russian</u>		
		
FJPTD, cws jacket	5.45 97 322 (all maroon primer and mouth seal. Olive drab steel case).....	1.00
<u>5.7 x 28 Belgian P90</u> (These are also listed in Metric Pistol section because of being a dual purpose round. BE ADVISED: Because this cartridge fits a Belgian <u>handgun</u> , the SS190 & L191 bullets will be partially sectioned so as to render them useless as to their Kevlar penetrating capability. No exceptions)		
L191 A.P. Tracer *	FNB 02 5.7 x 28 (flat brass brimer, red over black bullet tip).....	4.50
Ball, SS192 FJOPE	FNB 01 5.7 x 28 (flat brass primer, red pri seal, black mouth seal)	3.00
Ball, SS190, <u>black tip</u> (A.P.) *	FNB 00 5.7 x 28 (flat brass primer, red seal, loaded by Winchester	7.50
Subsonic SB193, <u>white tip</u>	FNB 99 5.7 x 28 (flat nickel primer, blue primer seal)	3.00
Training T194, <u>green tip</u>	FNB 90 5.7 x 28 (flat nickel primer, blue seal, bullet has a full jacket open at point.	4.50
   		
<u>5.7 Johnson Spitfire</u>		
40 grain Sierra PSP	Various US 30 Carbine headstamps. By Precision Cartridge.....	2.50
<u>5 x 57.8 Sturtevant,</u>		
FJRN (or) FJPTD	K DWM K 469A (flat brass primer, steel jacket bullets. These ARE NOT factory DWM loads. They are loaded from DWM headstamped-factory primed cases and DWM bullets. They have	

	been lightly cleaned and are in excellent condition. A rare headstamp).....	20.00
5.45 x 39 Russian		
FJPTD, cws jacket	270 88 (flat brass primer, red mouth & pri seal, olive green laq. steel case) .	4.00
Same	10 93 (same, brown mouth seal)	4.00
5.56 U.S.		
XM199 Dummy	L C 6 9 (blind primer pocket, six flutes in brass case, FJPTD bullet).....	3.00
XM855E1 ball FN	. LC . 8.I (brass primer & case, green bullet tip)	3.50
M196 Tracer	R A 6 4 (brass primer & case, red bullet tip)	3.00
XM777 Ball	L C 7 7 (bras primer & case, black bullet tip)	3.00
M187 High Pressure Test	R A 6 7 (brass primer, nickeled case)	4.50
E26T1 Short range	OMA 88 (nickel primer, aluminum case, blue FN plastic bullet)	3.00
M862 Training round	WCC s 09 (brass primer & case, blue plastic bullet)	4.00
Training round	Plain steel head with a huge copper primer, <u>case & bullet are blue plastic</u> . See	2.50
Inert dummy blank	INERT (impressed on flat base, 7 lobe rose crimp).....	2.50
M1042 BLUE man marking round	E (on copper rimfire primer. <u>Blue ink</u> visible in bullet nose).....	4.50
M1042 RED man marking round	Same primer as above, <u>red ink</u> visible in bullet nose).....	4.50
YELLOW man marking round	SB (in three triangles) on brass primer.....	4.50

5.56 SPIW Single flechette

XM 216

Single flechette, XM216

Plain base with flat brass primer. Full ring crimp & red seal, flechette housed in green teflon sabot. 43mm necked, straight base case. 12.00

5.56 L.E.R.R.

Training load

No headstamp on case, rimfire initial primer is headstamped **E** This is a Low Energy, Reduced Range training cartridge made to be used with modified M16 rifles to allow full function shooting with less need for extensive range territory. A very unique design. 4.50
